Title:

Comments: Pursuant to comment period: see previous complaints objection period dated March 22, 2021 unsigned by Forest Supervisor Anthony Madrid N.M.

Pg 1. HWHT undefined to deceive public census flight greatly exaggerated to deceive public

2. Remaining 50 sterilized horses cannot be sustainable numbers on 300,000 acres of ingress/egress of the BMRD from Forest Lakes to Pinedale; while maintaining use affinity to the Territory Proper which is an imaginary line west, south, and east.

3. This USDA - DTMP will ultimately destroy our Heber Herd as the other Herds have been reined in neighboring states as Anthony Madrid is aware of in New Mexico. History states:

- 60,000,000 million bison completely exterminated
- Thousands of Meriam elk completely exterminated
- Antelope in Arizona also completely exterminated
- Big Horn sheep in Arizona also completely exterminated
- Wolves in Arizona also completely exterminated
- Grisly bear in Arizona also completely exterminated
- Roosevelt non-native elk transplanted 1912-1925 here.
- Bison transplanted on ranches in Arizona from Yellowstone
- Antelope and Big Horn Sheep collared and transplanted back here

Totally object
