Title:

Comments: Please regard this as my comments on the latest Heber Wild Horse Territory Plan:

a) The plan of about 100 horses per 20,000 acres is far too low. Equine biologists say this is not viable for genetic diversity. That's a fact.

b) 80% of Americans are opposed to these roundups (Gallup)

c) PZP fertility control is a proven aid

d) "Wild Horse Tours" are an economic benefit to area (so leave them alone)
