Comments: My wife and I ski at Copper over 100 days a season. We are very much in favor of the Lumberjack high speed quad and snowmaking on the Roundabout site. Ski instructors will use the terrain more with a high speed chairlift and with snowmaking at the "beginning" of the season. The project will make a safer environment for all skiers at Copper. Without the quad lift and snowmaking, beginners are forced on to intermediate and advance terrain which makes it unsafe for everyone. Please go forward with the project.
