Comments: Please do not expand width restrictions. The side by sides have a ton of options to ride and will only destroy the trails and make them more dangerous. I ride at Wayne several times a year and love coming there because of the trail conditions. I have been to parks in Tennessee Kentucky and Indiana. I have not returned to any of them because of the damage these vehicles do to the trails. The ruts are impassable and where it is not rutted out the trail is so wide for them is like riding on a dirt road. I have also almost been hit do to them flying the the trails usually drinking in the vehicle. Large led lights. Stereos blaring music. Things I go to the woods to get away from. This is not the crowd that the current patrons who like myself want to ride with. I always come with a group of at least 4 and we all feel the same way. Please consider the people that love and support WNF before expanding width. Thank you for your time and consideration.
