Comments: For the Athens unit, I would like to see the width restriction remain at 50". For the 2 wheel riders dedicated single track would be good as they can get frustrated when encountering larger machines or slower riding groups. Addition of single track should not come at the expense of other riders access to existing trails.

With the proposed changes for trail closures, if the desire is to close the trails for any reason throughout the open season, there should be an extension on the end of the trails season to account for the closure dates.
