Comments: I am writing to support the construction of the Honey Badger trails for a couple of reasons. As our area continues to grow, recreation seeking individuals need more places to play. We live by the Canfield system, and when I take my young daughter on the trails, sometimes she takes longer to respond to the traffic than I'd like. Less traffic means safer for her. Also, as a runner and hiker, it'd be nice to have the non motorized trail to avoid the uneven terrain created by dirt bikes.

Thank you for your consideration in this matter!
