Comments: I live also within earshot of the oregon dunes. I hear the quads at all hours and live at least a mile across lake woahink from the closest riding area. I don't agree with raising the decibel level of the offroad vehicles. I would be much more interested in the forest service enforcing the curfew times as it is. I hear riders out on the dunes at all hours of the night all the time. They also fire off fireworks and guns at all times of the night.
