Comments: Hello Dedicated USFS Stewards!

First, I want to thank the Wayne National Forest contingent of the USFS for their dedicated stewardship of these great lands, and their services to the community. I imagine it's largely a thankless job and sometimes you see less-than-stellar aspects of the public's use of your hard work. I can assure you that the silent, and respectful, majority of us are appreciative of what you do and how it impacts our enjoyment of nature.

I'm would like to advocate for more OHV trails, either in the form of some less-groomed options and/or in unidirectional trails where we don't have to worry about oncoming traffic in blind turns. This would expand the skills range that the WNF OHV trails provide. I'd also LOVE if you created a "trials" practice area, and I'm certain that Trials Inc. would be happy to help lay out the design and even help with labor or materials. It wouldn't need much space at all - less than an acre for sure. Finally, I'd love to see more designated camping areas that are close to, but not directly on a trailhead. There are tons of spaces like these out west in BLM lands, but we have almost nothing like that in the east.

Thank you again for your consideration, and for doing what you do - it's appreciated!

- Scott McCrory
