Comments: I would like to register my wholehearted support of the plan to upgrade the 4-seat chair (Mt. Hood Express) at Mount Hood Meadows to a 6-seat express. I believe that this will have a major positive effect on the ski experiences of visitors to Mount Hood Meadows with little or no impact on the National Forest. The resort is not looking to increase ski area as part of this project and it will almost certainly have no overall significant impact on the number of skiers on the mountain except possibly on the more busy weekends and holidays.

Thank you for allowing me to comment
