Comments: public comment on federal register

re red rock wilamette forest - attack on 6700 acres of 33,000 acre forest owned by the public citizenry of this entire nation - 350,000,000 americans want to save our soressts and do not want them used for logging. i believe this plan is a lie and certainly it is no "improvement" to this forest. it is a human attack on the forest and it needs to be stopped. humans dont really know how to "rstore" a forest. they are there to moneymake with this forest and that is the purpose of this invasion and attack on nature. trees in fact know what they want next to them better than any fs fat cat bureaucratic employee. this agency is there to do mischief and assaults. this attack needs to be shut down. this is not diversity. nature knows how to do its own diversity. we want honesty in plans and the lies spewing from the usfs are intolerable. these assaults on nature must stop. hilary,how can these lies go out under your name. jean publiee jean, save the forest
