Comments: Hello.

Where can the public put in rafts, or kayaks to float the Owens?

At one time there was public access east of the Arcularius Ranch, but about the time Arcularius acquired the Alpers Ranch, that access to the Owens River was replaced by barbed wire. I have been supportive of many of the organizations here in the Eastern Sierra for many years, and never noted any reference to losing access to the Owens River as a recreational resource. Thank you,

Jon Goodwin, Mammoth Lakes, CA
