Comments: While I certainly agree, stricter rules and enforcement is needed, I feel some of the proposed rules are going too far, too quickly. Particularly when it comes to dispersed camping. I feel the new rules eliminating dispersed camping will greatly impact the spirit of camping in the Gorge. I would be much more open to less drastic change to the current camping system. In my experience, those using the Gorge for day use do far more damage than those camping (Particularly backcountry). Most backcountry campers do their part in respecting the Gorge and its rules. I would suggest implementing more restrictions on day use. Thanks for your time.
