First name: Gavin

Last name: Bernard

Organization:

Title:

Comments: I support the priority these plan's place on partnership to accomplish planning, education and management goals. DBNF should continue to consider RRGCC, Access Fund and the climbing community as partners. This partnership is proven, longstanding, and recorded in both a DBNF and USFS MOU.

I climb often in the Red, roughly once every three weeks, and it would be a shame to have this proposal negativity impact the positive impact that climbing has on the local community. Please ensure that these positive proposed changes are done while keeping in mind the climbing community.
