Title:

Comments: Ben coming to reg for over 15y what a wonderful place. I strongly disagree with the removal Of dispersed camping. I argue more Targeted enforcement. This can be paid for by making a entry fee into the park. This would allow for more officers and improvement of Parking. I understands Any change is difficult but some change is needed to protect the area. Targeted enforcement would allow for violators of camping rules, alcohol poor site choices and so on to be enforced and allow other areas to heal. I would also recommend a more robust volunteer network that can aid in identifying illegal campers and call in the park rangers.
