Comments: Hello,

I frequent the Red River Gorge and Daniel Boone National Forest.

The rawness of RRG is what I believe to be the most magnificent trait of its beauty.

I found parts of myself there, and I believe that the freedom one has to wander around in RRG is one of the best parts.

I support the preservation on nature and the natural way of the ecosystem. I want to preserve the gorge for generations to come. I know many feel this way.

I do not in anyway support the building of a resort or anything of the sort.
