Comments: I object to the Shuttle Stops that will ruin the Gorge.

I object to the no dispersed Camping, getting rid of this will make it over crowded when trying to camp, RRG is unique in where we can camp basically anywhere as long as we clean up.

I object to the limiting parking and enforcement of that, instead of having Rangers enforce parking use them to walk trails like they do now to make sure people are obeying the rules on the trails.

I agree with adopting the 50 user created trails.

I agree with limiting Bicycles and horses, those just create a pain for drivers and hikers.

I object to the no new bolted climbing routes in the Clifty Wilderness, what are you going to do when one route gets to dangerous to climb on?
