Comments: To whom it may concern,

The health of the winter Valdez Tourism industry walks hand in hand with the heli-ski industry. An important part of attracting guests here is access to the vast amount of public lands that sit all around us. In my time here I have found that the operators are not only conscious about guest safety and experience, they all care deeply for the mountains that they utilize. Tsiana Lodge and Valdez Heli Ski guides are a shining example of this.

Kind Regards,
