Comments: I'm a hiker and off-road motorcycle rider. My wife and I ride and hike in the Lincoln National Forest 5 to 6 times each year, 25-30 days.

We stay in a rental cabin.
We eat in restaurants.
We buy supplies.
We recently donated to the Cloudcroft EMS.

The biggest issues I hear about in the Lincoln are:
Too many users on the same trails.
Users on trails they aren't legal entitled to be on, mostly due inadequate or damaged barriers.
Trails worn out, no new trails have been created in years.

Because of those issues and others many responsible users have given up on the area and are going to Colorado or other places instead.

Please add to the recreational opportunities in the Lincoln National Forest.
