Comments: The area covered by the Foothills Landscape Project #52509 is one of the wonders of Georgia. We must have constant reviews and oversight of the project. We must do all that we can to ensure the goals laid out in this project are realized. So much of this country's natural resources have been mistreated. We can't let that happen here. There are so many good sides to this project, protecting wildlife, protecting old growth forests, protecting groundwater, etc. The project must have firm management and transparency. Keep Georgia as the national treasure it really is.
