Comments: I support the Chattooga Conservancy's response to the Forest Service's proposed project in the Chattooga, i.e., the Foothills Landscape Project.
I served for 27 years as Director of Highlands Biological Station in Highlands, NC, and led a team surveying the herpetofauna of the Chattooga, and was involved in other research in the watershed; thus, I am familiar with the unique flora and fauna of the watershed, and concerned about its proper management.
