Comments: I am in favor of making these areas day use only. Some people camp in these areas for much longer than 2 weeks and leave trash all over the place. It is an eyesore to see when going hiking. Most people who using for longer than a day show little to no care for the other people who use the trails or those who live in these neighborhoods. Some of the places I use most often will have the same car, trailer, tents, etc blocking off half of the parking are for weeks on end. Some will leave a trailer and multiple cars like it is their own personal parking lot. This is not fair to the rest of us! These people are not using the land they are abusing the land!
