First name: Brett

Last name: Wolfe

Organization: Rocky Mountain Sled Conditions

Title: Owner

Comments: I own and operate a website, and social media sites, providing avalanche/snow condition/riding area/services and lodging information. I believe winter recreation alternative "C" would be appropriate for the Grand Mesa, Uncompahgre and Gunnison Forest Plan Revision #51806. The area already has many "protected"/wilderness areas. Snowmobiling is good for Colorado's economy. The machines do not destroy vegetation, and from my observations-don't upset the wildlife, although not much wildlife at the higher elevations in the winter. I am against any forest plan reducing area to snowmobiles. Thank you for your time.
