Comments: As outlined by the Biden admirations support of Restoring America the Beautiful(30x30) It is important that we strive to protect as much wilderness as possible. The fact that Alternative B has less forest protections than the Bush White House is drastically off from the Biden executive order. As a citizen who enjoys the doors and the forest with the GMUG plan we must expand their protections. We are endanger of causing further harm to our earth and damage the lands that we love.
