Title:

Comments: We purchased our property in 1987 and literally built our home ourselves. We chose this property because it backed up to BLM (at the time) land. We have strongly voiced our opposition and concerns through the years. Along with Commissioner Barry Penzel we organized and held neighborhood meetings. The property will be sold, the road will go in but hopefully as promised we who live along this section will be respected and our quality of life and property values will be considered when the road goes in. We are tired of fighting this as it is truly a no win for our community. I quiet life is and will come to a screeching halt with this road and development. At this point we can only ask that we are not forgotten in this process.

Regards
