First name: Casey

Last name: Jacobs

Organization:

Title:

Comments: This forest service land if meant for all of us. As a resident of Patagonia, AZ I love to use this land for hiking, biking and camping. The Hermosa mine, currently run by South 32, should not have priority over the land. The people of this country do! By selling this to a mine you are showing priority to a foreign company who will hire mostly outsiders to take ore all the way to China, over the the people of this country. Please keep this land in the hands of its citizens.

Sincerely,

Casey Jacobs
