Comments: To whom it may concern,

As resident of Southern Arizona I oppose the the proposed Small Tracts Act sale of National Forest land to Arizona Minerals, Inc. Selling our public land to a foreign mining company may create short term jobs, but in the long term it threatens a very ecological sensitive area in one of the most biodiverse regions of our country. The impact from mining in the area will lead to many negative consequences for the threatened and endangered species living in the Patagonia Mountains. I would like see the National Forest Service consult with the U.S. Fish and Wildlife Service regarding the potential sale's impacts on the ecology of the land.

I hereby reference comments filed by Patagonia Resource Alliance and include those comments as issues of concern for me individually.

Thank you for your time and consideration.
