First name: Mark

Last name: Barber

Organization: Eastern Oregon All Terrain Vehicle Association

Title: Secretary/Tresurer

Comments: To update our, EOATVA's, comments, we are in support of the Opportunities for Enhancement on page 13 of the Preliminary Environmental Assessment. These trail additions are in alignment with what we have discussed. However I am confused by the reference to the 5182-800 road system in relation to the Trail Creek (not "Cooperative"?) TMA. From the ODF map of the Trail Creek TMA the TMA lies south of the Sheep Creek Vegetation Management Area and the 5182-800 road system is at least 5 miles north of there. Unless I am missing something there seems to be a total disconnect between the two and there should be no need for a closure of those roads during archery season. I feel this needs either clarified or corrected in the document.
