Title:

Comments: I am in support of this change. As a member of the mountain biking community I wholly support this change as the potential for damage to the trails is mitigated by the fact that more usage would prevent significant damage caused by unauthorized motorized dirt bikes which have damaged the trails during the closure each of the last 2 winters.

I would also like to voice support of the incusing of up to class 2 (assist to 20 mph) e-bikes as mountain bikes for the use of mountain bike specific trails.
