Comments: We would like you to not designate any more wilderness land in Colorado. Colorado already has more than 3,500,000 acres set aside for wilderness. We keep seeing more and more land taken away from other forms of recreation and enjoyment in Colorado. We want to enjoy our beautiful state, by driving, OHVing, camping, fishing, etc. The people that want to and can hike have way more options than we do! We are senior citizens who want to enjoy our state but can not hike or bike. We drive our 4X4 or our OHV - responsibly and by the rules. It is the NLY way we can access the land. Please stop taking it away!!!!!!!!!!!!!!
