Title:

Comments: I am in favor of the proposed changes, but I would propose that the period of access for bicycles and equestrians be extended further. I understand that the purpose of this period is to protect the integrity fo the trail and I do not ride my mountain bike when the trail is wet at any time of the year, but I am able to ride other local trails all year long and often January through March is dry enough to ride while May and June are far too wet for riding. I am able to ride other local trails at State parks and other land with no problem.
