Comments: Dear Forest Service,

As Lutsen residents, downhill skiers and recreational users of the Superior National Forest, our family of 4 adults all support the expansion of the Lutsen Ski Area. We feel that the Lutsen Ski Area is a very desirable use of our federal lands, drives tourism and the local economy, and has a low environmental impact compared with other uses of federal land.

Please grant an approval of the expansion of the Lutsen Ski Area.

Thank you!
