Comments: Reviewing the project details, as a frequent Lutsen skier, makes me excited for what this new venture may be. We have been hearing for years now of possible expansion, but to see in detail the possibilities is very exciting. I learned to ski at the age of 2 at Lutsen, and now continue to ski there with my kids and parents. Having a wide variety of skill level available is very important to me since we have such an age range and skill range skiing. Moose Mountain is always my favorite to ski on, but on nice days it does become crowded, so seeing possible expansion on this side is ideal. I also really like the idea of more parking access from both Eagle and Moose, that way people can start skiing where they are most comfortable.
