Comments: Hello I am a big supporter of the public/private use of Forest Service land for skiing. This improvement or expansion to the Lutsen Mountains will be a positive growth opportunity. Many ski resort out west have the use of Forest Service land and has developed the areas quite nicely. This is a opportunity that all will benefit from. Growth in the area will bring work and opportunity to the surrounding areas. I support all of these TYPES of improvement for Skiers, hunters, fisherman, hikers, mountain bikers, walkers all that enjoy being outdoors. Please continue with these types of improvement for all who enjoy being in the great outdoors. The young children and adults need more of these places to escape to. I support nature. Ducks unlimited and many other conservation groups/organizations.

Thank you and lets work together on this one.

Bill Westrick Owner of 117A Caribou Highlands resort.
