Comments: Lutsen Mountains Ski Area Expansion Project

After reviewing these plans I fully support the full expansion plan. I have skied at Lutsen for over 30 years.

Lately there are issues with parking and being able to get food & beverages on property. We bring our own rather than deal with the crowds and long lines.

Also - after skiing for two days you get bored with the existing terrain. It would be great to have more terrain to keep the interest up for more consecutive days of skiing.

would also like to see more ski-in ski-out lodging as that is hard to come by.
