Title:

Comments: I have skied a Lutsen a number of times--I will likely to do so in the future.

I am OPPOSED to the expansion at Lutsen (and all skiing areas, for that matter), as this continues the slow destruction of our natural areas.

I'm tired of the US government allowing corporate interests to benefit from the destruction of our natural heritage.

Once you've allowed this development to proceed, it won't be easily reversed. No more development of public lands for any purposes!
