Title:

Comments: I'm a trail user & am concerned about trail closures on page 9, sec. 4. Temporary closures are fine when the work is being done, however using "slash" & other large debris is not to anyones benefit, especially in emergency situations. Historicly we have been utilizing the areas for generations and any path closures significaly deters use and potential future use.

Please DO NOT USE THIS METHOD AS INDICATED ON PAGE 9 SEC.4.

Reserving all unalienable rights as a taxpayer & public land user.
