Comments: Thank you for the opportunity to comment on your Draft Revised Forest Plan.

The Manti-La Sal is important to me, and I'd like the forest to analyze the Conservation Alternative, in full, in the upcoming Draft Environmental Impact Statement. In addition, I'd like the forest to protect Bears Ears National Monument, insure that logging, grazing, mining, and gas exploration interests cease to be considered in National forests and on all public-owned and reservation lands. We need to take climate control and the preservation of our environment seriously. The days of the get-rich-quick corporate interests having their way with public lands needs to end ASAP.
