Comments: Thank you for the opportunity to comment on your Draft Revised Forest Plan.

The Manti-La Sal is so important to so many for a variety of reasons, and in light of increasing pressures the forest faces from a hotter, drier Colorado Plateau, the revised Forest Plan must consider climate change; conservation of wildlands, water, native plants, and wildlife; increased Indigenous influence, and better responsiveness to the public.

All of these needs can be met by the Conservation Alternative, and it must be analyzed in its full and complete form in the upcoming Draft Environmental Impact Statement.

Additionally, it's important to me that..news that you are updating your plan. Im a Utah Site Steward (base in AZ), with locations I monitor in the Forest and the area is being loved to death. Theres not an easy fix but reimagining recreation is going to be critical for the future. The concept of visit with respect is so important. Thank you in advance for the work you will be doing. Please keep me informed. RE
