Title:
Comments: Greetings, my name is Colton. I recently moved to the area for skiing and mtn biking. The mtn biking is fantastic and is one of the many summer activities. I think its important that the Lutsen Mountains continues t grow in order to reach all types of clientele. I am an advanced skier and I know people would travel further to ski here if the terrain fit their interests. I moved here from Bozemnan MT and Bridger bowl even has hikable terrain that is accessible for skiers. Please consider expanding the ski area, it would benefit so many people and create so many jobs.
