Comments: Thank you for the opportunity to comment on your Draft Revised Forest Plan.

The Manti-La Sal is important to me, and Id like the forest to analyze the Conservation Alternative, in full, in the upcoming Draft Environmental Impact Statement. In addition, Id also like the forest to benefit native plants, wildlife, and precious water sources as well as preserve and protect old-growth trees, particularly in the pinyon and juniper and ponderosa pine forest types. In addition, the forest should designate the pinyon jay as a species of conservation concern.

Thank you!
