Comments: We do not NEED more ski areas! We NEED more wilderness that is available to the public. People come to this area to enjoy its natural beauty. I feel this project would ruin that, along with some truly stunning hiking areas. Please please please do not let this project go through! I'd really hate to see all the natural beauty of this area destroyed. Once that happens there is no going back. Please leave these beautiful natural places as they are so future generations can experience it too.
