Comments: My comment is to state my opposition to the SUP being approved for any reason. Lutsen knew it was surrounded by state forest when it started. If they needed more room then they should have found the area they needed elsewhere.

Lutsen actually wants to at least double their operating capacity by using land set aside for everyone. Why should we want to pave over paradise to put in a parking lot?

Leave our wild areas wild. Do not allow them to take over the beautiful forest.
