Comments: I fully support extending the ATV/ORV trail season by any amount of time the Wayne National Forest Service people feel is needed. The more the better. Having ridden the trails for many years, there have been many times in the winter I wished the trails were open. The woods must be beautiful after a snowfall! I do understand the concern of erosion, however, I think the amount of winter riders would be so reduced because of cold, the erosion wouldnt likely be a concern.

Thank you for listening and asking for input!
