Comments: I Am a Owner of a inholding just across the county line in San Miguel. Just East of the project boundary line that's on the Pecos ranger district side. I am interested in how this will affect my property that is just East of the project boundary. What will be traffic impact to county road B52 and the Pecos Canyon just North of the village. a good portion of LA Cueva road has already been treated ,will there be much work in this immediate area also? Traffic? Lastly I would like to be given the contact information to some of the people that will be running the projects on the ground. I would like to know which areas that are in the Los Alamitos Canyon general Area will happen and what will the scope be. Thinning or prescribed burn?
