Comments: I am writing to express my opinion that Lutsen resort should not be permitted to expand on to public land. The large proposed development with huge parking areas would permanently destroy one of the most scenic areas in the state. Lutsen is large enough and caters to the wealthiest segment of the population, whereas now anyone can enjoy those areas. Lutsen is already draining the Poplar River; no telling how much more water would be demanded by this expansion. Let's preserve the remainder of Moose mountain for all who want to enjoy it.
