First name: Kunkowski

Last name: Bedajii

Organization:

Title:

Comments: I ask that you would reconsider the alarming ratio of deforestation planned in the Santa Fe National forest, and complete due diligence by requesting an independent environmental impact report. The fight to preserve our public lands is in the hands of us who pay the taxes that maintain it. Please do not in haste, for the sake of revenue. Money lasts only a while, but our planet is with us always.
