Comments: To Whom it may concern:

Please reconsider your proposed landscape restoration project for Big Bear Valley until more updated information on the Bald Eagle habitat can be evaluated. This work at this time would be detrimental to our current resident Eagles Jackie and Shadow as well as any other wild life in this area. Nestorations have already begun for this bonded pair and would be heart breaking to millions of us humans to see this happen and possibly never see them again. Our Bald Eagles are protected for a reason. Please continue to protect this pair and any other Eagels in this area until more updated analysis can be made. Thank you for listening to me.
