Title:

Comments: I think that the expansion is very important for Lutsen moving forward, as Lutsen needs to expand to have more diverse terrain, and the new base areas, as parking right now is a big mess. To survive in the long run, and be the vail of the midwest, this really needs to happen. as a Lutsen skier, I really hope this will get the green light from the forest service, and I also hope that Lutsen will upgrade its existing lifts before the expansion really starts.
