Comments: We are begging you to please reconsider what you are thinking about doing. All the data you are looking at is out of date!!!! So much nature is already destroyed by the yearly fires so why destroy more!!!

You will be disrupting more wildlife and especially the eagles Shadow and Jackie! I was born and raised in the San Bernardo mountains and even though I no longer live there I have family still there and still call it home!!

With all this destruction of nature in today's world it reminder of the song by Joni Mitchell The Pink Paradise)
So sad!!!
