Comments: The age of the cow is over. It's time to end this welfare for ranchers and remove all the cows from the LaSals. The LaSals are now full of people seeking recreation and beauty. The cows have a huge impact on trails and vegetation. Face the facts and get out of the 19th century. Cows have no place in these beautiful mountains. Also, follow the mandate of the Research Natural Area and get rid of the goats. Introducing a large exotic into the pristine alpine area is a huge mistake. I've seen the damage they cause with my own eyes. Do the right thing and get rid of the goats.
